## PLUGS

Fed up with the Football? Bothered by the Budget?

What you need is a boogie down on Christchurch Quay.

Yes it's that time of year when the good people of Christchurch welcome you to the best little festival in the area. Here you will find everything from massed Ukuleles to Belly Dancers, Morris Men to Manic Musicians, and so much more. We've got some of the best local bands, from youngsters to old hands. We have continued to blackmail Lady Winwood's Maggot, so our favourites punk country rockers will be the highlight once again on Sunday. It's going to be a brilliant weekend, all in aid of the Mayors Charities, so Christchurch Activities for Young People, Portfield School, (through The Wessex Autistic Society) and First Opportunities will all benefit from your entrance fee and donations. Slap on the factor 15 and enjoy.

Phoenix would like me to give them a plug, although with their enviable record for being rebooked time again wherever they play leads me to suspect that they don't really need one. Frank has promised to buy me a pint and show me his EVH Kramer if I put this in, but I'm not sure if this is a guitar, or something he bought at Ann Summers. Plenty of opportunities to see this popular band this month, so they must be doing something right.

Also you should check out Frank's other outfit, Sweet FA. This has morphed into a three piece acoustic act playing high energy acoustic rock and pop. they have two new members and the band is writing some original material too.

In an earlier edition of Live Wire I may have given the impression that Stan had, with his Blues Jam, had done more to bring blues musicians together than anyone else. It has subsequently been pointed out to me that it is his partner, Helen "that does all the bloody work". I would like to apologise for any offence that I may have caused. I hope that apology allows me to walk into the Talbot in Winton on Thursday 13th with impunity. This is, after all a friendly family run pub. They have some great stuff here, you can catch the Wolverines Jazz band on Thursday 15th, and the aforementioned Phoenix on the 9th. The highlight here this month has to be the Abba tribute in all their pomp and glory on Friday 30th. This gig is a ticket only event, so pop in and grab yours as soon as you can.

Milbourne St Andrew hosts "Roger's Rant" from 2nd to 4th July, a weekend of folk music. Of course, traditionalists will be reluctant to put DT11 OJA into their SatNav, preferring to use time honoured methods to get there, or a map. Why not write a ditty on how difficult the map was to fold, and then perform it on site? Aspiring singers can have a go in the friendly atmosphere at the sports club. Check out the website, (it's a long one) www.milbornestandrew.org.uk/RogersRant/Index.htm or the thankfully shorter www.myspace.com/rogersrant

Meanwhile, over in Lyme Regis, same weekend, they are having their three day jazz festival. There will be something for every taste in jazz – but, broadly, based in the "Dixieland" and "Swing" tradition. You will find names like Kenny Ball, Dave Shepherd, The Bone Supremacy And Tony Carter and 4 great locations. Full information and tickets are available from The Tourist Information Centre on 01297 442138 or simply type "Lyme Regis Jazz Festival" into your web browser.

There are some great gigs coming up at Mr Kyps this month. Amongst the tribute bands, I would choose Who's Who and Sgt Peppers Only Dart Board Band. You will doubtless have your own favourites, but for a real treat I urge you to check out Galahad, the local Prog Rock outfit that has achieved international status, and a cult following. Highly recommended.

This is the last edition of Live Wire. I've had a good run. I have produced this gig guide, for fifteen years, most of which I have thoroughly enjoyed. Unfortunately, the current economic climate has meant that many people and organisations have pulled back on their advertising budgets, including many of the big players. Live Wire has been largely a one man operation. I have compiled, produced, and distributed Live Wire on my own. It remains popular, there is no problem with getting people to pick the thing up. Ironically demand remains stronger than ever, and there seem to be more and more places putting on live music. The Live Wire Gig Guide will live on, on the internet, thanks to Rebecca at Dolfin Music, and I will continue to supply the list to the Echo for their "What's On" page, every Friday and The Advertiser. I shall miss it. I think it made a difference. I would like to thank all those advertisers, musicians, venues and individuals that have supported me over the years. Special thanks to Premier Print who have done so much, not only in printing the thing, but for the technical support and advice they have give me, when things have got complicated on my computer.

Could Live Wire return in the future, in different form? We shall see.
